

REMARKS

The Examiner has rejected claims 1-28 and 30-33 under various arguments based on 35 USC § 102 and USC § 103. Applicant has canceled all but claim 33. Applicant has also canceled claims 29 and 34-38 in accordance with the restriction election previously provisionally made. Further the canceled claims renders moot the Examiner's rejections under 35 USC § 112. It is respectfully submitted that claim 33 is patentable over the art of record. While the Examiner did not recite a specific rejection of claim 33, it is included in the group rejection on the first page of the Office Action. However, it is submitted that none of the art of record teaches or suggests, whether taken singly or in combination, the method of selectively displaying one or a plurality of arrays in low or high bit rate resolution depending on the selected combination. The Examiner's stated rejections do not apply to this claim.

It is respectfully submitted that none of the art of record teaches or remotely suggests applicant's invention, whether taken singly or in combination. It is respectfully requested that the rejections to the claims be withdrawn and the case be passed to issue.

If the Examiner feels that a telephone conference with the undersigned would be helpful to the allowance of this application, a telephone conference is respectfully requested.

Respectfully submitted,
JACKSON WALKER L.L.P.
